

Corporate Philosophy

- 1: Our corporate principle philosophy is to be a continuous “Engineering Oriented Company.”

In order to implement this, our business activity shall be based on development, manufacturing, and sales of valuable products which are reliable for customers all over the world.

Our starting point is “The company’s existence is allowed by customers.”

- 2: Our aim is to be sustainable and worthy growth economically, environmentally, and socially.

- 3: Our mission is to improve the shareholder’s value, satisfy the employees, and to contribute to the development of industry and society through our business growth.
